

BREEZE Cable Blowing Machine

The "BREEZE" Cable Blowing Machine has been designed to meet the growing need for the installation of micro cables. Small and portable with ergonomic controls, it is ideally suited for external or internal use. The compliant double driven cable rollers provide secure grip whilst safely handling the cable. The pushing force can be set to match the cable stiffness, and the speed control is fully adjustable between zero and maximum. Recent improvements to the machine implement a high/low torque switch giving greater sensitivity when adjusting low-end torque. This allows the installation of a greater range of cables down to 1mm in diameter.

The machine is retained in a lightweight, robust aluminium housing and supplied completed with working/carrying case and "J" Mac air coupling.

A full range of accessories is available to handle the cable and tube range.

SPECIFICATION

Cable Diameter:	1 to 8mm
Tube Size (Outside Dia):	5.0 to 16mm
Cable Speed (Adjustable):	0-62m/min
Maximum Air Pressure:	15 Bar
Power Requirement:	220/110 Volt AC 50/60 Hz

SHIPPING SPECIFICATIONS (including travel case)

Length:	470mm
Width:	340mm
Height:	490mm
Weight:	40kg

Supplied as 110V Ac 50/60 Hz (standard)

For 220/240v Ac 50 Hz

Transformer C-TRANS-CM-7501 required

ORDERING DETAILS

Product No	Description
C-1300	Breeze Cable Blowing Machine

ACCESSORIES

Steel Drive Wheel Kit	C-1300-DW-S-KIT
Soft Drive Wheels	C-1300-DW-P-RUBBER
