

C-1054 Single Capstan Winch

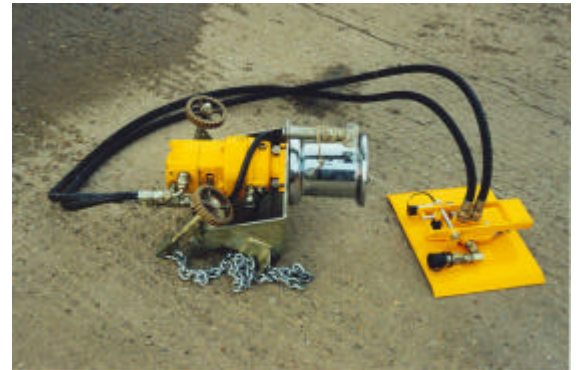

The C-1054 Capstan Winch has been designed to hoist loads up pole or transmission towers.

Fitted with a rope-locking device as standard, thus eliminating the necessity to tie off the rope. The C-1054 comes complete with foot control and easily connects to a Portable Power Pack via quick release couplings.

SPECIFICATION

Capacity:	450kg
Rope Speed:	30m/min
Capstan Diameter:	140mm
Width:	460mm
Height:	380mm
Depth:	340mm
Weight:	50kg

C-1203 Hydraulic Power Pack

A lightweight trolley mounted hydraulic power pack, with pre-set internal system protection relief valve and quick release connections.
