

## C-993-F Single Capstan Hydraulic Underground Winch - 3 Tonne Capacity

The C-993-F comprises a high quality steel chassis and single capstan drive, powered by twin cylinder diesel engine.

The wire rope simply needs to be wrapped around the capstan 3 times to prevent slippage.

The winch is also fitted with relief valve system which can be set to the maximum pull of the cable. Once the maximum pull has been reached, the winch will stop pulling, thus protecting the cable.

### SPECIFICATION

Capacity:	3000kg
Engine:	13Kw at 3600rpm
