

C-752 Drum Trailer

The C-752 Drum Trailer has been designed to provide safe handling of cable or conductor drums. Manufactured in strong steel sections, it incorporates manually operated hydraulic lifting of drums.

There is an optional drum braking facility, which can be used to control the conductor when undertaking conductor-stringing operations. Trailer braking is of the overrun type and is supplied to EC Specification with auto reverse as standard. Lights are also fitted as standard.

SPECIFICATION

Max Drum Weight:	2430kg
Max Drum Width:	1280mm
Min Drum Diameter:	1060mm
Max Drum Diameter:	2500mm
Towing Eye:	Standard 50mm dia eye
Height (without drum):	1720mm
Width:	2285mm
Length:	3720mm
Weight:	710kg
Spindle:	76mm
Suspension:	Swinging arm with aeon suspension
Braking:	Drum brakes to EC Specification with hand brake
Lifting Arrangement:	Hydraulic pump with individual valves for each ram
Tyres:	215/75 R17.5
